Lions receive REMC grant

The Grass Creek Lions Park Fund has received a grant from the Fulton County REMC to rebuild the well house at the park. The old building was moved there from a farm east of town many years ago and is in very bad shape and has to be torn down.

The Grass Creek Lions will rebuild the building themselves, using the REMC grant. Pictured here are Carl Sommers, Lions Park Fund treasurer; Joe Koch, Chief Financial Officer for REMC; and Eileen Sommers.

The old Grass Creek School property was purchased by the Lions Club which has maintained the area as a community park. The Lions donate their time and labor to maintain and upkeep the park for the betterment of the community. In the summer months, the park is mowed and trimmed by the members, each taking a turn. The Lions Club Park is the only park in Wayne Township. Since the park is owned by the Lions Club, it does not received any monies from the township or county. As a means of income, the club holds a fish fry twice a year, sells fruit in the fall, and accepts donations.

Many improvements have been made to the park since its beginning – a pavilion, the restoration of the 100-year-old depot, new playground equipment, new garage to hold the lawn equipment – all this via community donations and grants from the Fulton County Community Foundation, REMC, Fulton County Solid Waste, and Lions International.

Admission is \$6 for adults, \$2 for children 6-11, and free for those age five and under. Hours are 10 a.m. to 6 p.m. Saturday and 10 a.m. to 4 p.m. Sunday.

Returning this year will be the River Valley Colonials Fife & Drum Corp, Sun Prairie, Wisconsin; Ben Franklin portrayed by Chuck Molenda, Carpentersville, Illinois; and Johnny Appleseed portrayed by Steve McPhail, Upland.

The public is invited to join in the Indian dances at 2 p.m. and 3 p.m., which are held in an arena encircled by teepees. The drum will be Massassagan Drum led by Mike Floyd, chief of the Eel River Tribe. Head dancers will be Rachel Sadowski, Dowagiac, Michigan, and Marl Hall, Peru. TRAIL OF COURAGE Con't. From Page One

The Trail of Courage includes historic encampments representing the French and Indian War, Voyageurs, Revolutionary War, War of 1812, Western Fur Trade, Plains Indians teepees and a Woodland Indian wigwam village. A special re-creation of a Miami Village includes lifeways wigwams and demonstrations, such as making cattail mats. There is also a recreation of Chippeway, the first trading post, post office and village in Fulton County in 1832. Food purveyors and traditional craftsmen set up in wooden booths to demonstrate and sell their wares. Craftsmen also sell pre-1840 trade goods from blankets in historic and merchant tents, offering a variety of items from clothing and jewelry to knives and candles, everything needed to live in frontier days. Canoe rides, muzzle loading shooting throwing and tomahawk contests, and a frontier blab school add to the frontier activities.

Two stages with frontier music and dance present programs from 10 a.m. to 5 p.m. Saturday and 10 a.m. to 4 p.m. Sunday. Since the early 1980s, the historical society has received grants from the Indiana Arts Commission and the National Endowment for the Arts to help pay for musicians and dancers which include $42^{\rm nd}$ the Highlanders; River Valley Colonial Fife & Drum Corp; Aztec dancers; Shakin' Hammers String Band; Mark and Lisa Woolever; Steve McPhail (Johnny Appleseed); Chuck

Molenda (Ben Franklin); Chief White Eagle and his Indian lore; Indian dancers and drum. Many volunteers provide programs such as the Frontier Frolic dance called by Shirley Willard; Nan Edwards and her travois pulling dogs; Marsha Glassburn and her Indian storytelling; Shirley Needham and her red-tailed and red shoulder hawks; the Riddle School 4^{th} grade dancers; and Mark Gropp and his bagpipes. Both Catholic and Protestant worship services are held at 9 a.m. Sunday morning.

Pioneer foods are cooked over wood fires. Visitors can feast on buffalo burgers, chicken and noodles, barbecue, ham and beans, fish and chips cooked in big iron kettles, turkey legs, Indian tacos and frybread, corn on the cob, apple sausage, and more including one of George Washington's favorite treats, ice cream. Local clubs cook and serve these historic foods to fund their projects including the Rochester Rotary, Kappa Delta Phi, Grass Creek Lions Club, and the Fulton County Historical Society. A black family, Beverly Iackson, Rochester, do the barbecue and sweet potato pie and also exhibit a frontier African-American house. Many people come to the festival just for the delicious food.

The grounds are handicap accessible. Free tram rides are available to bring people from the museum, round barn and Living History Village at the north end of the grounds. The museum and village are open with costumed hosts and free admission.

Volunteers can earn free admission to the Trail of Courage by working half a day. To volunteer or for more information, call the museum at 574-223-4436. Free parking is provided on the FCHS grounds. There are plenty of free benches available for sitting and resting.

Sinusitis

Fall brings with it that nasty pollen and dust and unfortunately, often sinusitis. Defined as an inflammation or swelling of the lining of the sinuses, it occurs when your sinuses — small empty caverns in your skull that are normally filled with air - become blocked with fluid, allowing germs to enter. Over time, the blocked sinuses become breeding grounds for viruses, bacteria and fungi, ultimately leading to infection.

Pulaski Memorial Hospital offers the following information for informative purposes only. Please consult with your healthcare provider regarding this condition. Sinus blockage can be caused by colds, allergic rhinitis (swelling of the sinuses due to allergies), nasal polyps, or a deviated septum — a misalignment in the nasal cavities.

Symptoms of sinusitis include:

Headache or pressure in the nose, eyes, teeth, cheek area or head; Cough; Weakness; Fever; Fatigue; Bad breath;

Loss of smell; Nasal congestion and discharge; Sore throat and postnasal drip

To treat sinusitis, you can take decongestants, which may open your nasal passages while decreasing drainage. For fever and headache, you can take pain relievers. Cough medication may help as well.

Even when you have a green or

yellow discharge, you don't always need antibiotics for acute sinusitis. Most of the time, the infection will go away on its own. Typically, antibiotics prescribed only when you're experiencing a high fever, severe swelling, or headache or face pain, or if symptoms don't disappear on their own after several weeks. Children who have had both a cough and nasal discharge for 10 to 14 days may receive antibiotics.

For chronic sinusitis, you may need antifungal medications. Other options immunotherapy (allergy shots) and antihistamines or nasal corticosteroid sprays to reduce swelling. In some cases, physicians may recommend surgery to clean and drain the sinuses.

Embracing change

Dr. Ed Hollenberg

As another school year begins, we recognize change is a fact of life, the one thing we can count on. Many changes we face are chaotic, disorderly unplanned. But with the change of natural processes there is an order, a highly predictable plan. Think of the constant forces of change in our bodies as we grow from infancy to toddler, child to adolescent, adult to aged. Slow, continual change evolves in the world around us population, consumption, marriage and divorce, birth and death, homelessness, crime and violence, wars and tribal conflicts, economic and political change... life goes on.

Change & Growth During infancy and childhood, choices and change are almost the complete responsibility of parents. Curiosity must be encouraged but safe-guarded. As physical and emotional develop changes during adolesence, the body is growing, yet the brain does not reach adult maturity until age 22. This is a period of challenged response/ability. Guidance and stability from parents, teachers and adult mentors are vital. Every teenager needs a role model other than Mom & Dad. The adolescent brain needs good purposes, values and a sense of destiny.

Changing Habits

Perhaps we feel helpless because so much change is out of our control. Change is also a choice as it pertains to our attitudes and habits. William James wrote, "The greatest discovery of my generation is that human beings can alter their lives by altering their attitudes of mind. Ridding ourselves of faulty, negatives thoughts and actions by concentrating on positive desires and emotions. choose and to act response/ably, one must visualize desires, clarify actions and reject enslavement to old, reactive patterns.

Change Your Future

Industry consultant Phil Crosby made a powerful statement on change in lives/homes, "The culture we now have...we don't need to condemn it...all we have to do is describe the future the way we would like to (see it) and

then march down the yellow brick road." Like Dorothy in The Wizard of Oz, we parents can envision our children and families marching to our destiny as we see it. Imagine, daily, how you want to change and it will happen! Your life will change - it is inevitable. The only question is when, how and how much...positive or negative. It is choice. Grow...transform...renew your

Saying goodbye to Blindy (and the other

Some might consider bullheads (as in the fish) an odd choice of pet. I prefer the term creative.

Besides, we didn't choose our bullheads; we rescued them. They were adopted into our family at a tender age - scooped from the shallows of the lake and from an almost saved guaranteed death in the jaws of larger fish. Lake life can be a killer, especially if you are a baby bullhead.

They spent their first weeks with us in an ice cream bucket. We set up their habitat and provided new lake water every few days. It wasn't a permanent situation because they weren't permanent pets.

The more we got to know them (to the extent that humans can know fish), the more we liked them. They didn't bark at the mailman or get into fights with other cats in the neighborhood.

As a bonus, they were sort of cute - what with their whiskers and all. We had three. One was missing an eye. We called him Blindy. The others didn't get

As the days went on, they sort of grew on us. So much so we needed to find them a bigger home. The 10-gallon aquarium demonstrated quite Our commitment. baby bullheads weren't going back to the lake anytime soon.

That was three years ago. I never thought our bullheads would last this long, turns out they are tough fish. And smart. They learned to adapt to aquarium life. They cuddled together on the bottom - the place they felt most comfortable. They also learned to swim to the top when we opened the aquarium lid because this action lead to a sprinkling of goldfish food. (Try looking for bullhead food at the super store. It just isn't there.)

For our part, we learned not to walk too close to the tank (they possess a sensitive startle reflex) and to always drop some food on Blindy's good side.

We hoped the bullheads might produce babies. We looked the process up online and found out bullheads lay their eggs in concave "nests" on the floor of the lake, or aquarium. We used a wooden spoon to carve out nests in the aquarium rocks, but Blindy and the others must not have noticed. Or, perhaps our fish were all girls - or all boys. Either way, our nests remained empty, without any bullhead eggs.

When our bullheads didn't have babies of their own, we tried the next best thing. Last year, we rescued more baby bullheads from the shallows and brought them home to our newest aquarium: a 29-gallon Taj Mahal of tanks. We dropped the little guys in. They lasted less than a minute. Our bullheads ate them like they were popcorn. Even Blindy got a couple. Our babies didn't stand a chance against cannibals. Aquarium life can be a killer, especially if you are a baby bullhead.

Or a big bullhead. Ours measured about 10-inches long (Blindy a bit shorter) when we found them floating dead last Tuesday. All three at once. I

know, it seems fishy.

Still, no autopsies were performed as foul play was not suspected. (Our fish had no known enemies.) We held the funeral immediately after finding the bodies. You understand how it is with dead fish. You don't have long to fool around with writing eulogies or choosing memorial songs because things go downhill quickly after a fish goes fins up.

I lost three pets last week: Blindy and the other two. They were trusted members of our family. They never vomited on the couch or tracked mud all over the clean kitchen floor, which is more than I can say for the other pets and majority of humans in the house.

In theory, our bullheads have swum on to higher waters - ones where Blindy has two good eyes and bullheads occupy a welcome spot at the top of the lake with all the other fish. In reality, they are in backyard, buried next to the pepper plants. The fish that didn't prove fertile in the aquarium are now getting a second chance at fertilization - in the garden.

In death, as in life, Blindy and the other two ask for little and give so much. May they rest (or would that be swim?) in peace.
